

### Step-by-Step Instructions to Create a Trust Wallet for BNB and Add a Custom Token

Follow these simple steps to set up your Trust Wallet, securely store your BNB, and add a custom token:

#### Step 1: Download Trust Wallet

1. Go to the **App Store (iOS)** or **Google Play Store (Android)** on your mobile device.
2. In the search bar, type "**Trust Wallet**".
3. Look for the official app published by "**DApps, Inc.**" and click **Install** (or **Get** on iOS).

#### Step 2: Open Trust Wallet and Create a New Wallet

1. After installation, open the **Trust Wallet** app.
2. When you first launch the app, you'll see the option to **Create a New Wallet** or **I already have a wallet**.
3. Tap on **Create a New Wallet**.

#### Step 3: Backup Your Recovery Phrase

1. Trust Wallet will now provide you with a **12-word recovery phrase**. This is extremely important for recovering your wallet in case your phone is lost or stolen.
2. **Write down the 12-word phrase** and store it in a safe place—**do not share it with anyone**.
3. Confirm the recovery phrase by selecting the words in the correct order.
4. Tap **Continue** once you've written down and confirmed your recovery phrase.

#### Step 4: Set Up Your Wallet Security

1. You may be prompted to set up **additional security**, such as a **PIN code** or **biometric authentication** (fingerprint or face recognition).
2. Set your preferred security method to ensure that your wallet is safe from unauthorized access.

#### Step 5: Add BNB to Your Wallet

1. After your wallet is set up, you'll be taken to the **main screen** of your Trust Wallet.
2. Tap the **"+"** icon in the upper-right corner of the screen to add a new coin.
3. Search for **BNB** (Binance Coin) in the list of available cryptocurrencies.
4. Toggle the switch next to **BNB** to add it to your wallet.
5. Your **BNB address** is now ready to receive BNB.

#### Step 6: Receive BNB in Your Wallet

1. On the main screen of your Trust Wallet, tap **BNB** to open your BNB wallet.
2. Tap the **"Receive"** button to display your **BNB address** (QR code and alphanumeric address).
3. Copy the address or scan the QR code with another device to send BNB to your wallet.

#### Step 7: Add a Custom Token to Your Wallet

1. On the main screen of your Trust Wallet, tap the **"+"** icon in the upper-right corner again.
2. In the search bar, type the **token name** or **contract address** of the custom token you want to add.
  - i. If the token is listed on Trust Wallet, it will appear in the search results. You can toggle the switch next to the token name to add it.
  - ii. If the token is **not listed**, you can manually enter the contract address by selecting **"Add Custom Token"**.
3. To add a custom token, you will need:
  - i. **Network:** Select the correct network - **Binance Smart Chain**
  - ii. **Contract Address:** Enter the **contract address** of the token - **0x4320F541021f91dD7AA54DE42e3fA41283978d70**
  - iii. **Name:** Enter the **name** of the token - **MDDC**
  - iv. **Symbol:** Enter the **symbol** – N/A
  - v. **Decimals:** Enter the **decimals** - (use 18 decimals)
4. Once all the details are filled in, tap **Save**.
5. Congratulations your **custom token** will now appear in your Trust Wallet.
